Originally developed early in 1999 as a proof of concept product, ApplTop Solutions are pleased to announce the forthcoming release of their next major product, ASL*Accelerate/R2i for the Oracle E-Business Suite 11i.

ASL*Accelerate enables the non-technical to enhance, personalise and streamline their applications in ways that make end-users more efficient and productive, this can ultimately streamline the business and help companies make better use of their investment in the Oracle E-Business Suite.

The product consists of a number of components that allow its users to enhance existing parts of the Oracle E-Business Suite in a matter of minutes without having to write a single line of code. The two main components are: -

ASL*Zoom...

Create navigational enhancements to the applications.

ASL*Action...

Make amendments to existing forms within the applications.

ASL*Accelerate offers low cost, low risk solutions for everyday issues that do not require strong technical skills and that can be provided in a matter of minutes.

The official launch date for the product is the 21st of July 2003. The product is being made available worldwide.

ApplTop Solutions say, "Since before the release of our flagship product ASL*Form, we have been working hard on ASL*Accelerate, we are pleased to announce its forthcoming release and we are confident that it will meet and exceed all of our clients expectations. ASL*Accelerate is a very powerful and flexible product that can help improve the end-users experience of the Oracle E-Business Suite in so many ways that it facilitates greater productivity and acceptance of a system."

ASL*Accelerate will initially only be available for Oracle E-Business Suite 11i but a version for Oracle Applications 11.0.x will be made available shortly after the products initial release.

Full product details including licensing/pricing will be made available shortly.

All ApplTop products are available on a zero cost, zero obligation trial basis for up to 4 weeks. ApplTop Solutions state that ROI is very likely to be realised during the trial period.
